

Consent Form For Participation in the Study Entitled:
“Evaluating the User Interface of Rec Online

This research project is studying the usability of the **Rec Online Graphical User Interface**. You will be asked about your impressions and opinions of the user interface, and to indicate which portions of the user interface you had difficulties with.

You will be asked to do some simple tasks (for example, searching for an activity). While you are completing the tasks, we will ask you several questions about your actions. Your participation should require about 30 minutes of your time. The results will be reported in a project report for CSCI 310 in the Department of Computing Science at Vancouver Island University.

Your participation is completely voluntary and you can withdraw from the study at any time, without explanation. You have the right to refuse to answer any questions you do not wish to answer.

Any data collected in the study will remain confidential; interview results and questionnaires will be kept in a locked filing cabinet in a locked office. Only the principal and co-investigators (**David Burneau, Basheer Mohammad, and Mohammad Al Atwi**) will have access to the data. Your name will not be attached to any published results, and your anonymity will be protected by using code numbers to identify results obtained from individual subjects.

Your interview will be audiotaped (videotaped) and the tape will be erased immediately after your responses are coded in written form.

Whether you participate or choose not to participate will have no bearing on your grade/employment status/academic standing/job/services received.
